

Web-Based Resources Strategies for Improving Student Outcomes on a Tight Budget

A Workshop for novice and advanced users of educational technology

April 29-30, 2010
Clackamas, Oregon

FREE! All expenses, including travel, meals, lodging, and substitutes will be paid through CWA's Dissemination Grant

Topics will include:

- ✓ *21st Century Learning Standards & the New Oregon Diploma*
- ✓ *Integrating educational technology*
- ✓ *Web-based tools to engage students and communicate*
- ✓ *Individualized learning through web-based curriculums*
- ✓ *Web 2.0 tools*

Presenters will include Dr. Jackie Mangieri, an experienced educator with over sixteen years' experience teaching at the elementary through adult level. Dr. Mangieri is a university professor teaching a variety of undergraduate courses designed to introduce students to online learning as well as graduate teacher education courses. She is a published author and experienced speaker, and her research interests include educational technology, teacher efficacy, online learning, and professional development.

The Oregon Virtual School District will be on hand to set up free Moodle sites and train attendees in this excellent free learning management system. Rosetta Stone will showcase its foreign language and ESL programs. Personalized, hands-on instruction will be available.

Space is limited.
